Deliverable 3 - Stand-up Log

Each day we had a stand-up to discuss our progress, obstacles, and anything else we needed to discuss. Below is a summary of each stand-up meeting.

March 4
Discussed layout of features (merging pages and features), talked about cleaning up current features/extending them and assigned new tasks to everyone.

March 5
Finalized tasks and started to work on given tasks, no obstacles.

March 6
Started researching tools to be used for the features (ie: different libraries, icons), no obstacles.

March 7
Continued work on tasks, no obstacles.

March 8
Continued work on tasks, no obstacles.

March 9
Team meeting, showed current progress and reviewed remaining user story points on Jira (ones to focus on and ones for the next sprint).

March 10
Reiterated and implemented feedback from the team about shown tasks and continued to work tasks/starting looking into new tasks given.

March 11
Implemented Password Manager storage functionality. Continued work on NavBar integration.

March 12

Focused on fixing bugs, as well as resolving some merge conflicts that had occurred.

March 13

Continue working on tasks, no obstacles.

March 14

Collaborated on resolving some bugs and additional changes to be made

March 15

Continue working on tasks, no obstacles. Added text-to-speech feature and tips pages.

March 16

Discussed progress on each task. Decided to add some additional small features. Collaborated on fixing some bugs and resolving conflicts. Added languages and font selection feature.

March 17

Divided the work for the deliverable documents. Continue working, no obstacles
